

Serie F.300

Y TYPE STRAINER

F.300

The filters F.300 are flanged Y filters, with a body made of cast iron, which are manufactured in accordance with severe product norms. They are a prerequisite for protecting pumps, valves, backflow preventers and pressure reducing valves against dirt (rust, welding parts, solids).

The filters are suitable for chemical, food and industrial plants. Also for heating and cooling (HVAC), for the distribution of water, and for agricultural purposes.

YES: for installation in horizontal and vertical positions.

NO: for steam.
